

GROUP FUNCTIONING EVALUATION

In your group take a few minutes to discuss and answer these questions about this particular cooperative learning experience. Focus your discussion on the process -- what you experienced, felt and thought while doing the activity.

1. What are three ways you did well in functioning as a cooperative group?

2. What problems did you have interacting as a cooperative group?

3. What is a **specific action** that would help you function and interact *even better* next time?
