

Homework #11

Use doxygen to generate html documentation of your MonteCarlo class.

- ◆ Split code into several files
 - ◆ MonteCarloIntegrator.h
 - ◆ Class header file containing class definition
 - ◆ MonteCarloIntegrator.cc
 - ◆ Source code file for class member functions
 - ◆ i.e. Your “MonteCarloIntegrator::<memberFunction>” code
 - ◆ *<your_program>.cc*
 - ◆ Source code file for your main()

Copy and link the “html” directory to your Project #12 webpage
