

COMPUTATIONAL PHYSICS LAB  
PHZ 4151C/5156C

Homework 7

Due in class, Tuesday, March 4.

(1) Read all of Chapter 10, Chapter 12 (7 pages), and Chapter 15 (5 pages)

(2) Assignments from chapter 10.10: “*Arrays and matrices*”

Do (1) – (9)

Identify the errors in the following programs and indicate if they are compile-time, link-time or run-time errors. If the program does not contain any errors, write down its output.

Assume **#include <iostream.h>** is entered as the first line of each program. Some programs may contain more than one error.
